DecoLux BUSINESS ALLIANCE

Executive Summary

Bel Décor × MEZZO GRP — Redefining Glass Decoration in Tunisia

Confidential — March 2026

The Opportunity

Tunisia's glass decoration and personalization market is experiencing growing demand across multiple sectors — personalized gifts, cosmetics packaging, olive oil branding, and grande distribution. Yet the market lacks a structured, quality-driven player capable of delivering premium glass decoration at industrial scale. **DecoLux** fills that gap.

By combining Bel Décor's 15+ years of glass decoration mastery with MEZZO GRP's commercial infrastructure and premium design capabilities, DecoLux is positioned to become **Tunisia's premier glass decoration and personalization brand**.

The Partnership

Role	Production Director	Commercial Director
Core Strength	Manufacturing & expertise	Sales & design
Key Assets	Machines (~50,000 TND)	Premises & showroom
Contribution	Production, training, client portfolio	Investment, design, business development
Experience	15+ years glass decoration	Commercial network & premium branding

Structure: New SARL (Société à Responsabilité Limitée) under Tunisian law. Machines and premises leased to the company — assets remain with their respective owners. Initial lease payments structured as *compte courant associé* (shareholder loans).

Products & Markets

SEGMENT	PRODUCT	MARGIN/PIECE	PRIORITY
Personalized Objects	Custom glass gifts, branded items	1.0 – 2.5 TND	**Primary**
Grande Distribution	Retail glass packaging	1.5 TND	Secondary
Cosmetics	Premium beauty product bottles	1.5 – 2.5 TND	Growth
Olive Oil	Branded olive oil bottles	1.0 – 2.0 TND	Growth

Financial Snapshot

METRIC	VALUE
Initial Investment	22,000 TND
Machine Assets	~50,000 TND (leased to company)
Monthly Operating Costs	~12,000 TND
Production Capacity	2,000 pieces/day
Break-Even Point	8,000 pieces/month
Monthly Revenue Potential	25,000 – 40,000 TND
Ownership	50/50

Revenue Projections

PERIOD	MONTHLY REVENUE (TND)	STATUS
Month 1–3	5,000 – 10,000	Ramp-up & first clients
Month 3–6	15,000 – 20,000	Market penetration
Month 6–12	25,000+	Operational maturity
Year 2+	40,000+	Scale & expansion

Break-even is achievable by Month 3–4, with strong profitability from Month 6 onward. At full capacity (2,000 pieces/day × 22 working days), monthly production reaches 44,000 pieces — generating revenues well above the 25,000 TND target.

ROI: At 25,000 TND/month revenue with 12,000 TND costs = 13,000 TND monthly profit. The 22,000 TND investment is recovered within **2 months** of reaching operational maturity.

Structure & Governance

```

- **Co-gérance**: Both partners are co-managers

- **Major decisions** (>5,000 TND): Require unanimous consent
- **Day-to-day**: Each director operates autonomously within their domain
- **Reviews**: Monthly steering committee, quarterly business review
- **Deadlock resolution**: Mediation → Arbitration (Tunisian Chamber of Commerce)

Why This Works

Perfect Complementarity: Ridha cannot scale without commercial infrastructure. Anthony cannot produce without manufacturing expertise. Neither succeeds alone — together, they cover the entire value chain.

CHALLENGE (ALONE)	SOLUTION (TOGETHER)
Ridha lacks showroom & design	Anthony provides both
Anthony lacks production capability	Ridha delivers 2,000 pieces/day
Neither has brand positioning	DecoLux creates a unified premium brand
Limited market reach	Combined network doubles reach

Asset Protection: Machines and premises remain personal property (leased to company). If the alliance ends, each partner retains their assets.

Low Risk, High Upside: Only 22,000 TND investment with break-even at 8,000 pieces/month — achievable within the first quarter. Downside is limited; upside is a scalable industrial business.

Next Steps

#	ACTION	TIMELINE	RESPONSIBLE
1	Sign Memorandum of Understanding	Week 1	Both partners
2	Independent machine valuation	Week 2–3	External expert
3	Premises inspection & lease agreement	Week 2–3	Anthony
4	Legal review & SARL registration	Week 3–6	Legal counsel
5	Operational setup & first production	Week 6–8	Ridha
6	Showroom launch & first sales	Week 8–12	Anthony
7	First quarterly business review	Month 3	Both partners
